

State receives seven Mobile Food Testing laboratories

03-Sep-2020

Food safety officers standing in front of the new mobi-labs brought in the State to curb adulteration.

Staff Reporter ;

Madhya Pradesh has received seven Mobile Food Testing Laboratories from Food Safety and Standards Authority of India (FSSAI). These seven vans will be deployed to seven divisions in Madhya Pradesh. The Food Safety Department has launched its another movement, 'Eat Right Habit', to instill a habit of eating healthy and unadulterated food among the citizens.

A mobile food laboratory has been received in Bhopal district to promote 'Eat Right Habit' among the citizens. It will spread awareness on adulteration among the common citizens, along with Government and also at private schools and colleges, office-campus. Dr Goyal also said that the food traders should also be told about the provisions of the Food Safety Act.
