FSSAI asks nutraceuticals industry players to adopt self-regulation

August 3, 2018

Food safety regulator on Wednesday said there is still confusion among consumers about because of misinformation, and called for adoption of self-regulation by industry players.

(FSSA) Chairman said the industry has bigger responsibility to ensure quality and safe products to consumers.

Nuraceuticals are product of food origin with extra health benefits in addition to the basic nutritional value of the food. These can be viewed as non-specific biological therapies that promote general health, control symptoms and prevent malignant processes.

Addressing an event, Bahuguna said, "Everyone expects the acceptability of to grow. I feel the first challenge is that consumers have 'bramh' (confusion). There is so much "

There are also false claims about the products. The consumers want claims on labels to be clear. The industry should clarify the difference between and pharmaceuticals, he said asking the industry to work in this direction.

Consumer interest and safety should be the priority for the industry, for which it should adopt self-regulation, he added.

Bahuguna further said, "makes stringent rules that no one violates. Manufacturers have bigger responsibility to make quality and safe products."

is growing fast and will grow faster in the coming years. is open to accepting suggestions to improve the sector, he added.
Minister of State for Health Ashwini Kumar Choubey, National Institute of Food Technology Entrepreneurship & Management (NIFTEM) Vice Chancellor Chindi Vasudevappa were among other industry players present at the event.

Highlighting the challenges faced in the sector, Sami-Sabinsa Group founder and chairman Muhammed Majeed said the industry should be worried about herbal security as the country cannot depend on other nations like Indonesia for regular supply.

"In Ayurveda, if you don't get one herb, it is adulterated with other. Even in nutraceuticals, it happens. Therefore, herbal security is important," he said.

Majeed also said India should patent new products else other countries will do so, affecting the domestic industry.

Health Foods and Dietary Supplements Association (HADSA) President Ajit Singh said the domestic industry has many problems with regard to packaging and hygiene.

The nutraceuticals industry is forced to make products from equipments and processes designed by pharma industry. "We need to redesign equipments for nutraceuticals," he said.

Another problem is that nutraceuticals are packed scientifically. They are packed in plastics that reduce the quality of dosages each time the bottle is opened, he said and suggested blister packaging.

According to an Knowledge report, the Indian nutraceuticals market is expected to grow from USD 4 billion in 2017 to $18 billion in 2025.

Key global players in this sector include GSK Consumer Healthcare, HUL, Nestle, Danone, Kellogg's and Amway.

Indian companies like ITC, Dabur, Himalaya, Patanjali and Baidyanath are trying to reach out to customers by introducing new products in the market.

With emergence of new companies like Sami Labs, Tirupati Group, Deccan Healthcare and Vantage Nutrition, the market for nutraceuticals looks promising, the report said.
