

Communication Note:

“Abbott has initiated a proactive, voluntary recall of some powdered formulas, manufactured in Sturgis, Michigan, one of the company’s manufacturing facilities in the US. Abbott is voluntarily recalling these products after four consumer complaints.

In India, the voluntary recall only impacts Alimentum and EleCare, which is currently part of FSSAI’s ‘Diet For Life’ program. The products are imported from the U.S. in small quantities. Affected batches in India are:

Alimentum: Batch Code 23379Z260

EleCare Junior: Batch Code 24531Z200

EleCare: Batch Codes 25563Z200, 26731Z200, 23438Z200

No other Abbott nutritional products sold in India are affected. If consumers in India are currently using Alimentum or EleCare, they should not use the product. Abbott is encouraging consumers to talk to their healthcare professionals about suitable, alternative feeding options.

Should customers have any further queries, please contact Abbott India toll free number [1800 266 0448](tel:18002660448) or write to wecare.anindia@abbott.com”
