

# FSSAI ONLINE PROGRAM

## bioMérieux's Leadership Position In Industrial Microbiology

Inspiring Trust, Assuring Safe & Nutritious Food

FOOD SAFETY AND STANDARDS  
AUTHORITY OF INDIA

An initiative by the **Food Safety and Standard Authority of India (FSSAI)**  
in collaboration with **bioMérieux India**

## JOIN OUR WEBINARS

Organized by FSSAI in collaboration with bioMérieux India

### Webinars Overview

In today's world, food safety and quality are managed from farm to fork through the food supply chain. As food manufactures, microbiological risks are managed through incoming raw materials, manufacturing process and environment to ensure that finish products meet food safety and quality criteria.

How to set up an adequate sampling plan so that the effectiveness of food safety and quality control measures can be verified? In **Webinar 1**, we will talk about sampling plans recommended by the International Commission on Microbiological Specifications for Foods (ICMSF) to handle different types of food safety and quality risk.

Process environment is an area of particular interest to many food producers. Do you know the best practices used in industries to monitor process environment? In **Webinar 2**, we will share a model, illustrating how to design and implement an effective pathogen monitoring program for manufacturing process environment.

With overwhelming samples from the manufacturing site, you might be wondering how to select rapid microbiological methods to improve productivity in the lab? In **Webinar 3**, we will share key factors to consider when selecting rapid microbiological methods.

What are the mistakes people commonly make on good laboratory practices? In **Webinar 4**, we will highlight 10 common mistakes and provide suggestions on how to address them.

### Webinar 1: Selecting an Adequate Sampling Plan

**Dr Belle Yan**

11 August 2020, Tuesday  
03:00 - 04:00 PM

[Register for Webinar 1 →](#)

### Webinar 2: Environmental Pathogen Management in Food Manufacturing

**Dr Zheng Lou**

12 August 2020, Wednesday  
03:00 - 04:00 PM

[Register for Webinar 2 →](#)

### Webinar 3: How to Select Rapid Microbiological Methods

**Dr Belle Yan**

13 August 2020, Thursday  
03:00 - 04:00 PM

[Register for Webinar 3 →](#)

### Webinar 4: 10 Common Mistakes on Good Laboratory Practices

**Naresh Kumar**

14 August 2020, Friday  
03:00 - 04:00 PM

[Register for Webinar 4 →](#)
