

Recognizing the Importance of Plastic Waste Management,
PepsiCo India Commits To
Effectively Manage Plastic Waste and Reduce Plastic Footprint towards Achieving a Plastic-
Waste Free Food and Beverage Sector

In order to effectively Manage Plastic Waste, we are currently committed:

1. To implement our sustainable plastics vision that is rooted on three pillars of:
 - a) Reducing the amount of plastics in our packaging
 - b) Recycling the plastics, we bring to market by supporting a circular economy effort for plastic
 - c) Reinventing our plastic packaging by finding alternatives to plastics for our packaging
2. To collect, segregate, & sustainably manage equivalent to 100% of our post-consumer plastics packaging by March 2021.
3. To drive public awareness on source-segregation and recycling of plastic waste through clean-up dives like Jallosh (Mumbai beach and river clean-up), Cleanathon (Nagpur), Plog Run(Delhi) and school awareness programs (Darjeeling).

We further strive to monitor the Reduction of Plastic footprint of our Food Products by:

1. Designing 100% of our packaging to be recyclable, compostable or biodegradable by 2025
2. Globally, PepsiCo strives to use 25 percent recycled content in our plastic packaging by 2025
3. To work on increasing recycling rates by boosting recycling awareness and infrastructure in partnership with -
 - a) Alliance to End Plastic Waste
 - b) Circulate Capital
 - c) New Plastics Economy
 - d) Global Plastics Action Partnership

PepsiCo India is committed to these goals through our sustainable plastics vision to **build a world where plastics never become waste**. We aim to achieve this through our framework to reduce, recycle, and reinvent plastic packaging.
